MATHNASIUM

GET SMART WITH RUBBISH

Make It Ealing are putting together a ‘Know Your Waste’ leaflet with all the relevant information and legislation. The brochure will be available as a hand-out for existing and new staff who are involved with waste management and removal. The aim is to help businesses avoid contamination and enforcement issues. Council enforcement officers are becoming increasingly vigilant and are checking businesses’ waste transfer notices. First Mile has introduced QR Coding onto all their bags, so it is now possible for them to identify a company who contaminate or overload their bags.

CRIME REPORTING

Make It Ealing host monthly security meetings, open for all businesses to attend, to share best practice and discuss any ASB issues. The sessions have representatives from the police, counter-terrorism and Ealing council CCTV. Feedback from some of the discussions suggests that some businesses feel it is pointless reporting ASB and crime issues. However, we strongly urge businesses to report all incidences of ASB and crime, immediately as they occur. Without these reports and documented evidence of criminal activity, the police cannot identify the monitoring requirements or allocate resources to deal with the issues.
